Project Overview

With my custom-designed **Fitbit Air NATO Strap Adapters**, you can customize your Fitbit Air to suit your personal style. Instead of relying on proprietary wristbands, these adapters let you use standard **NATO straps** —for maximum comfort and style in everyday life or while working out.

Whether you’re looking for a free version for home use, prefer a particularly slim solution, or need a commercial printing license: You’ll find the right model here!

Overview of Available Variants

1 NATO Strap Adapter V2 (Free Edition)

- **Focus:** The perfect starter kit for makers.
- **Features:** Updated version (V2) with a slimmer design and integrated support structures for even easier and cleaner prints on your 3D printer.
